A large number of journals offer free full-text access online. One way to access these is “LinkOut”, by NCBI, a division of the National Library of Medicine and National Institutes of Health, USA.

LinkOut is designed to provide users with links from PubMed and other Entrez databases to a wide variety of relevant web-accessible online resources, including full-text publications. There is a list of 4688 PubMed journals that provide links to full text articles. Many are free, but user registration, subscription fee, or some other type of fee may be required to access full text of articles for some journals. A complete list of the free LinkOut journals by title is available at http://www.ncbi.nlm.nih.gov:80/entrez/journals/free_prov/free_fullProv.html.

As of June 21, 2005, a total of 135 providers supply free full text for 634 journals.

NEW! MULLIGAN’S ‘BACK UP’ SEAT CUSHION

This new product keeps the knees below the hips and makes the lordosis easier to maintain.

The highest point is placed under the ischael tuberosities. It makes a lumbar roll more effective if additional back support is required.

When sitting on this cushion have it so that you feel balanced and comfortable.

Prices at $34 plus postage and handing

Available from: Roger Main,
673 Childers Rd, Gisborne.
Tel/Fax (06) 867 0683.
